

SPRINT 7

DATA ORGANIZATION & PRODUCTIVITY ENHANCEMENT

Using Excel Productivity Features to Improve Data Preparation and Reporting.

Sprint Objective

Improve efficiency in data preparation and reporting using Excel productivity features.

Consolidation

Combine data from multiple sources

Auto Fill

Automate repetitive entries and formulas

Merge Cells

Improve report formatting and readability

Table Magic

Create structured and dynamic datasets

Features

FROM RAW DATA TO BETTER REPORTING

Raw Data

Excel Productivity Tools

Organized Dataset

Efficient Reporting

Business Insights

Excel productivity features reduce manual effort, improve data consistency, and accelerate business.

CONSOLIDATION & AUTO FILL

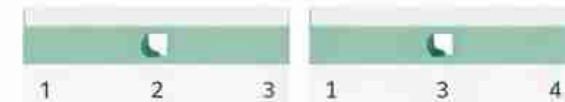

Excel Productivity Features for Faster Data Management

CONSOLIDATION

AUTO FILL

Jan → Feb → Mar → Apr ● ⇒ ● 4

✓ Saves Time

✓ Reduces Manual Work

✓ Improve Consistency

Auto Fill automatically extends patterns, formulas, and sequences across datasets.

BUSINESS IMPACT

Consolidation and Auto Fill significantly reduce manual effort, improve accuracy, & accelerate data preparation.

MERGE CELLS & TABLE MAGIC

Transforming Raw Data into Structured Business Reports

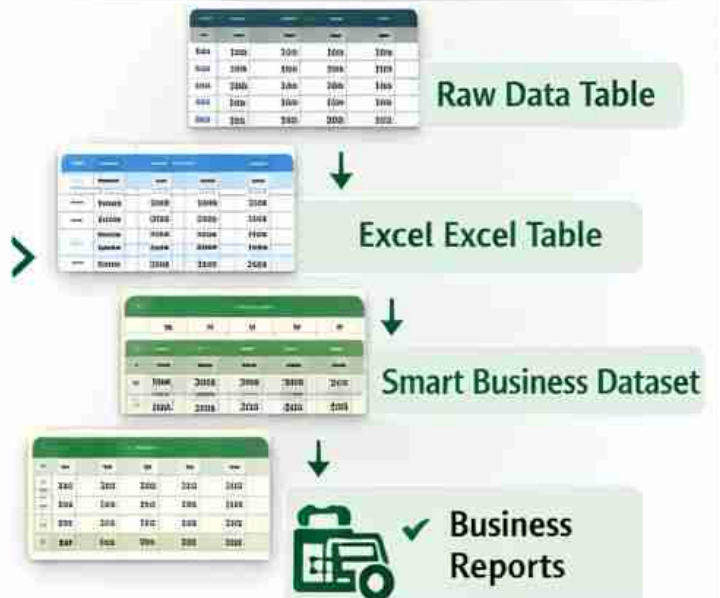

MERGE CELLS

- ✓ Better Presentation
- ✓ Improved Readability
- ✓ Professional Report Layout

Merge Cells helps create clear report titles and organized report structures.

TABLE MAGIC

- ✓ Automatic Filters
- ✓ Dynamic Range Expansion
- ✓ Structured References
- ✓ Easier Analysis

KEY BUSINESS BENEFIT

Merge Cells improves report presentation, while Excel Tables create dynamic and analysis-ready datasets for business intelligence.

SPRINT OUTCOME & BUSINESS IMPACT

KEY BENEFITS ACHIEVED

-  Faster Data Preparation
-  Reduced Manual Work
-  Improved Accuracy
-  Better Report Formatting
-  Organized Datasets
-  Efficient Analysis

- ✓ Consolidated Multiple Data Sources
- ✓ Automated Repetitive Tasks
- ✓ Improved Report Presentation
- ✓ Created Dynamic Excel Tables
